

Workforce Analytics

Giving you the big picture of Georgia's workforce.

The SPA Workforce Analytics Team provides the state a single source of insight about HR and the state workforce. This comprehensive data is used to improve agencies' workforce decision-making, and to optimize their human capital investments. Enterprise-wide workforce analytics offer a number of meaningful data-driven operational and strategic benefits.

What we can do for you

Workforce Analytics

What we can do for you

- Assist agencies in improving their workforce performance and effectiveness by providing HR professionals and managers with needed data.
- Publish reports semi-annually, which are used as tools to support statewide strategic direction in areas such as compensation and benefits, recruitment, retention and development.
